## TO HAVE BENCHES

IN THE COURT HOUSE YARD FOR THE PEOPLE.

## CLUBS ARE BACK OF IT

A Special Show to Be Given Monday Evening at the Empire, the Proceeds to Be Used to Buy Seats.

The Maryville Federation of Women's Clubs desires the co-operation of all citizens in the work it is now planning to do for the good of our city.

Although it is now pretty cold to think of sitting in the court house square and listening to the band, that is just what we shall be longing to do inside of three months, and the women of Maryville will make it possible for us to do so. They are making an effort to raise money to buy iron benches for the court house yard, and on Monday, January 5 they will make their first effort.

The women's clubs, in conjunction with Mr. Kuebs of the Empire theater, will present on that evening an especially fine moving picture show, consisting of the old historic tale of "Dick Whittington and His Cat," in three reels, and an amusing comedy reel, besides special singing by Mr. Goff.

Another prominent feature of the evening will be music by the band.

Mr. Maulding and the members of the Maryville band have given their services free of charge, which shows a spirit that should be emulated by every one.

Every member of the federation should feel it her duty to be present at this entertainment.

The prices will be fifteen cents for children and twenty-five cents for adults.

Maryville citizens are urged to attend for the good of Maryville.

### PUBLIC MEN.

What L. J. Hall in the Columbia Tribune Has to Say About Congressman Booher.

The following is what L. J. Hall says in an article in the Columbia Daily Tribune:

"Uncle Charley" is small in stature, moves quickly, and converses in soft, rapidly uttered tones. He loves children, and is never happier than when chaperoning a half score of boys and girls to the movies. There's not much conventionality in his make-up. When more comfortable to do so, he does his office work in his shirt sleeves. He would probably go barefoot if he felt like it. He salutes his constituents by their first names, in a hearty "Hello, Bill" style, and expects them to take the same liberty with him. He gives careful consideration to the needs of his district and state, and responds promptly to the calls for service made upon him. He is a staunch Democrat of the Jefferson-Jackson type, who lives squarely up to party principles every day in the week. During his service in the house he has strongly advocated legislation in the interest of the farmer, and for improvement of the conditions of the hired man. He is a hard worker in committee, and makes a clear, logical, forceful argument before the house. Best of all, however, his speeches have the merits of infrequency and brevity. As a pre-empting officer he gives quick, clear decisions and dispatches business with a snap. A majority of his constituents are farmers and merchants. He keeps in close touch with them and labors incessantly for their welfare. He served out the unexpired term of James Burnes in the fiftieth congress, and is now serving his fourth consecutive term since then.

He was born several years ago in East Groveland, N. Y., but has lived a long time in Savannah, Andrew county, Mo.

### Teachers Leaving for Work.

Several of the teachers who have been spending the holidays in Maryville with their parents are leaving Saturday for their school work in distant places. They are Miss Maud McMillan to Milwaukee, Wis.; Miss Bertha Ritz to Minneapolis, Minn.; Miss Lulu Todd and Miss Blanche Nixon to Hammond, Ind.; Miss Lena Nixon to Waukegan, Ill.; Miss Myrtle Nixon to the Berwin schools, Chicago; Miss Stella Smith to Oklahoma City, Okla.; Miss Frances Smith to Perry, Okla. Miss Selma Nixon, who teaches in the blind school at Kansas City, Kan., left Friday evening.

Mrs. F. E. Whitchurch of Savannah arrived Saturday noon and is a guest of Dr. and Mrs. G. H. Leech.

### THE CITY TAXES.

Over \$10,000 Has Been Collected, Leaving Only \$3,000 Yet to Get—

Penalty Now On.

City Collector John G. Grems has collected \$10,160.94 of the 1913 city taxes, and he has only \$3,244.97 left to get. The total tax to be collected is \$13,405.91.

During October Mr. Grems collected \$170.38. In November, \$1,586.39, and in December, \$3,404.17. The two biggest days were December 30 and 31. On the 30th he collected \$1,289 and on the 31st he received \$1,237.63.

The assessed valuation of the city is \$1,905,400 and the tax rate is 70 cents on each \$100 valuation. A year ago the tax rate was 90 cents on each \$100 valuation, and since that time we are now paying on the \$100,000 water bond issue.

A penalty went on January 1 for those who have not paid their taxes.

### DRANK AN AWFUL LOT OF BEER.

State Report Shows Many Gallons for Every Man, Woman and Child.

Beer enough was consumed in Missouri in 1913 to give each person thirty-nine pint bottles and a sixteen gallon keg of the beverage, according to the estimate made tonight by Speed Mosby, state beer inspector.

Mosby bases his figures on the records of the fees paid into his department. He said the brewers paid into the state treasury for beer inspection in 1913 a total of \$500,043. From this he has figured out that the people of the state consumed 79,500,000 gallons of beer during the year.

The total amount of fees paid to the state for beer inspection since the law was enacted is more than \$5,000,000, Mosby said.

### A Farmers' Institute.

A farmers' institute will be held at Pickering on Saturday, January 31. The speakers will be J. Kelley Wright and Miss Bell.

## A. COREY TO SPEAK

FOEMER MARYVILLE BOY WILL BE AT M. E. CHURCH SUNDAY.

## HAS BEEN IN CHINA

On Leave of Absence From China, Where He Has Been for Past Fourteen Years.

Rev. Abe Corey, a former Maryville boy, who is on leave of absence in this country from China, raising money for missions, will speak in the First Methodist church Sunday evening at 7:30 o'clock, at an interdenominational mass meeting.

Maryville people will be glad of an opportunity to hear Abe Corey, as he is remembered by them. He is a son of Rev. N. E. Corey, who was pastor of the First Christian church in this city some twenty years ago. He went to China about fourteen years ago as a missionary, and for several years has been dean of the Union university at Nankin, which is maintained by four denominations of Protestant churches. He came to America a year ago to work under mission boards for the purpose of raising \$1,000,000 for

the spread of the Gospel in foreign lands. He has already over-reached that mark by a good deal, and has set his mark for \$5,000,000, allowing until 1917 for its payment.

This week in Kansas City, at the student volunteer convention, R. A. Long, the millionaire lumberman, gave Mr. Corey his pledge for \$1,000,000 as soon as pledges to the amount of \$2,500,000 have been made. It is believed by many who have been watching the progress of the convention this week that Mr. Long will have opportunity to write his check for a million dollars by the time the convention closes Sunday night.

Abe Corey has not yet reached the prime of manhood in years. He is wholly consecrated to his work and has developed great power. He is as full of life and vigor and the spirit of fun as when a boy in Maryville, and he has turned it into a great channel of usefulness.

### Given Ten Years in Pen.

Loraine Marlow and James Meacham, the men who recently entered the home of Thomas Sellars, near Westboro, in Atchison county, and were arrested at Skidmore late at night after an all-day chase, were given ten years in the penitentiary by Judge W. C. Ellison at a special term of the Atchison county circuit court held this week. They both pleaded guilty to the charge. They were taken to the penitentiary this week.

## TO-NIGHT

"THE RAJAH'S DIAMOND ROSE" IN TWO PARTS—The unscrupulous Count had a way of showing his friends his beautiful Diamond Rose and then leaving them alone with it, if they touch it an automatic camera caught them red-handed and the Count asked big black mail. The sister of a youth thus dishonored exposed the fraud—The Diamond was bogus: "Making Good" and "Giving Bill a Rest"—Two good comedies.

### HIGH SCHOOL TEAM WON.

Defeated Maitland Friday Night by a Score of 33 to 23—Arranging for Several Games.

The high school team added one more basket ball scalp to their belt last night when they defeated the Maitland high school team by a 33 to 23 count.

The victory was not easily gained, for the Maitland lads displayed some class and led in the scoring until the last seven minutes of play when the local team began to pull away and closed the argument with a lead of ten points.

Spectators voted that the game was unnecessarily rough, but the honors seemed about evenly divided on that point, so that aside from slowing up the team work it gave no advantage to either side.

The local high school is arranging for several games in the near future, but no definite arrangements have been made. The summary:

Maryville—Willson, Murray, Scott, David, Miller.

Maitland—Brown, Phillips, Younger, Marrior, Miller.

Field goals—Willson 5, Murray 4, Scott 3, David 3, Brown 4, Phillips 2, Younger 2, Marrior.

Free throws—Willson 2, Murray, Brown, Phillips, Younger 2.

Referee—Breakbill of Maitland. Umpire—Polson.

## THE KAISER'S TREAT.

What an Invitation to His "Bier-abend" Really Means.

Kaiser Wilhelm occasionally gives a "bier-abend," an evening of informal entertainment, when beer is the only quencher of thirst. But an invitation to the kaiser's "bier-abend" is a paramount to a royal command to "bring your check book." It is the emperor's way of raising money. All the money for the recently opened Kaiser Wilhelm Research Institute is supposed to have been raised in this way. A certain well known merchant prince had won the royal favor and was invited to drink beer at the palace. He found a group of wealthy persons around the table.

The emperor explained what he wanted and allowed the newcomer to fill out the first check. He began with \$1,250, and the slip was carried around the head of the table for approval. The kaiser tore it to pieces. "If you start with that sum they will only be paying \$12.50 at the end," he said. So the merchant prince wrote out a check for \$75,000. This was approved, and the money the emperor wished for his pet charity was raised. Soon after the merchant prince received another invitation to drink beer at the palace. This time some one else had to write out the first check, but it cost him a good sum, anyway.

Quite soon another invitation came, and the merchant prince was beginning to feel that his hobnobbing with royalty was getting to be too expensive a luxury. But an invitation from a king is as binding as a summons, so he went and found an anxious group of charity supporters sitting around the table. The kaiser had not come, and the atmosphere was not exactly jovial. The emperor entered, beaming. "Good evening, gentlemen!" he said enthusiastically. "Tonight you will not have to pay for your beer!"—Raymond E. Swing in Chicago News.

## PLANNING A NEW PARIS.

M. Delannay's Big Scheme For Improving the French Capital.

Since Baron Haussmann remodeled Paris in the days of Napoleon III. at a cost of \$500,000,000 no such stupendous alterations as M. Marcel Delannay proposes have been considered for the French metropolis. M. Delannay is prefect of the Seine. His scheme involves the widening of many streets, the destruction of unsightly shanties and the erection in their places of model houses to be paid for in part out of \$40,000,000 already appropriated for this purpose by the municipal council, the limiting of the height of buildings to the width of the street on which they are situated and the laying out of forty-seven additional public gardens, making a total of 128 of these institutions, or more than London has.

"Le Grand Paris," as Delannay calls his proposal, also involves the development of the suburbs, where there will be a sudden acquisition of space after the fortifications have been destroyed. A large appropriation has already been made to wipe out these fortifications, which now serve only to provide lairs for the riffraff of Paris, but the prefect of the Seine wants a further \$100,000,000 to construct parks and flower beds where the old defenses now are. He would convert the open spaces about the city and the hills of the Seine, Marne and Oise rivers into huge gardens connected by a promenade about twenty-five miles in length.

At present there are nearly 200 inhabitants to the acre in Paris, twice as many as in London. The construction of "Le Grand Paris" would give the city nearly six times as much territory as it has at present, reducing this congestion and thereby lowering rents and the cost of living.—Outlook.

### Makes Gloves of Ray Proof.

M. Menard, chief of the radiographic and electrotherapeutic department of Cochin hospital, Paris, and M. Cousin, chief pharmacist of the same hospital, have succeeded in impregnating rubber with the salts of heavy metals, such as lead, in quantity great enough to make the rubber impervious to X rays. With the impregnated rubber they have made gloves which will prevent the hands of operators from being burned while administering the X rays.

### Canal Zone Game.

As Gatun lake is the only large body of water in the canal zone it is expected that it will attract many birds on migratory journeys as well as become a habitation for native species. Along the Chagres river there is an abundance of small animals, and if the isthmian commission persists in its purpose to protect the game the country along the water course and the lake may become a considerable reservation.—Christian Science Monitor.

All who wish to do so are at liberty to attend the service at the First Methodist church in the evening to hear Rev. Abe Corey of India, a former Maryville boy, on the subject of missions. It is not possible for all to gain entrance to the church, and the pastor thought best to hold service for those who might wish to come.

Rev. Polley preached at King Hill Christian church several Sundays ago, and made a favorable impression.

## SPOKE HIGHLY OF MOBERLY'S DOG

Trainer A. D. Williams of Creston, Ia., Says That the Dog Will Make a Name for Itself.

A. D. Williams of Creston, who was in the city Thursday with the bloodhound to trail Frank Sheldon, spoke highly of the bloodhound of Chief of Police Moberly, which is in Creston at the present time. He said that the dog was full of promise and would make good. Williams used Moberly's dog with his bloodhound at Creston on Christmas day and the dog was successful in trailing a robber. In this chase Moberly's bloodhound received an injury and is laid up at present. Williams was wanting to bring both of the dogs to Maryville this morning, but the injured dog was not able to make a chase.

Williams' bloodhound has quite a record. Before he left Maryville he received a call to come at once to Risan, Ia., with the dog, as there was a store robbery there. He left for that place on the noon Burlington train. "King" is the name of the dog, and he was used recently at Barnard to trail the robber of the Alumbaugh restaurant of that town.

In Calumet, Mich., Where  
Seventy-two Lost Lives.

WALL STREET IS  
GIVEN A THRILLMorgan Resigns From Direct-  
orates of Many Corporations.

New York, Jan. 3.—The announcement of the withdrawal of J. P. Morgan & Co. from more than a score of great corporations and the statement by George F. Baker, an almost equally dominant figure in finance, that he soon would take similar action, gave Wall street a thrill which almost brought trading on the Stock exchange to a halt.

While it is probably true that many of the prominent bankers had information foreshadowing this momentous move toward ending interlocking directorates, the public and brokers had no advance knowledge of what was taking place in the inner councils of the greatest of all American houses of finance. Wherever telephone and ticker flashed the news about the street groups of men gathered to discuss what was the all-absorbing topic. Mr. Morgan, departing from his firm's traditional policy of silence, made a public statement announcing the withdrawal of five members of J. P. Morgan & Co. from directorships in twenty-seven corporations and the intention to withdraw from more.

This step, the firm announced, was taken voluntarily in response to "an apparent change in public sentiment," on account of "some of the problems and criticisms having to do with the so called interlocking directorates." Among the companies from which they retired are the New York Central and the New Haven railroads.

## BIG CASES TO COME UP

Federal Supreme Court Faces Unusual  
Amount of Work.

Washington, Jan. 3.—The supreme court will meet Monday with an unusual amount of work. In addition to the probable announcement of many decisions, the court has set down for hearing on that day or as soon thereafter as possible enough cases to consume the time of the sittings of the court for nearly a week.

One of the most interesting of these involves the liability of the owners of the Titanic, which went down after striking an iceberg on April 14, 1912. The owners of the vessel, the Oceanic Steam Navigation company, a British corporation, is seeking to have its liability for the \$1,000,000 worth of claims lodged against it for the loss of life and property in the catastrophe limited under American law to the value of the salvage, the freight and passenger fares received on the trip, in all about \$30,000.

A millionaire's honor roll will be heard when the court calls a series of cases during the week involving the legality of the tax imposed by the Payne-Aldrich tariff law on the use of foreign built yachts by American citizens. H. Clay Pierce, Cornelius K. G. Billings, James Gordon Bennett, Roy A. Rainey and Mrs. Harriet Goelet each will have a case before the court attacking the tax.

## Tramp Uses Flag to Hang Self.

Clarinda, Ia., Jan. 3.—With the school American flag as a rope, a man hanged himself in the Kille school house, west of this city. Homeless, friendless and with no money, he sought the deserted building to end his life. Dr. Sellards identified the man as a tramp to whom he had talked in Clarinda. He told the doctor that he was "down and out" and had not home or friends.

## Swifts Authorize Bond Issue.

The issue is to be known as the first and general mortgage 5 per cent thirty years' bonds, and \$10,000,000 worth will be marketed at once, to provide for the payment of an outstanding issue of \$5,000,000 maturing July 1.

WILSON AND  
LIND CONFERDiscuss Mexican Situation in  
Chester's Cabin.

## SECRECY CHARACTERIZES ALL.

Rebel Prisoner Dragged at Tail of  
Wild Horse at Laredo—Huerta's  
Forces Having Better Fortune at  
Ojinaga—Besiegers Fall Back.

Pass Christian, Miss., Jan. 3.—President Wilson and John Lind, his personal representative in Mexico, conferred for two hours on board the scout cruiser Chester, and just as much secrecy as characterized the president's first meeting with Mr. Lind was evident on this occasion.

Information as to what the president intended to do was denied the newspaper correspondents. A big squad of them, however, was on hand at the oyster dock when President Wilson, accompanied by Dr. Cary T. Grayson and two secret service men, appeared. The revenue cutter Winona came as close to the shore as possible and sent a launch to the president.

The nation's chief executive got in to the bobbing craft and in fifteen minutes the president's flag was hoisted on the main mast of the cutter, which turned its prow seaward, followed by a tug chartered by the newspaper correspondents.

It was nearly three hours before the Chester was reached. When the president came over the side the presidential flag was unfurled from the Chester's main mast. Mr. Lind was the first to grasp the president's hand. The two immediately retired to the cabin.

They had been in conference about an hour when the red and blue lights in the fore rigging of the Chester began to flash naval messages to the revenue cutter. The conference continued another hour and then the president was transferred to the Winona, which carried him back to Gulfport.

## DRAGGED AT TAIL OF HORSE

Federals Send Animal Plunging Across  
Plain With Rebel.

Laredo, Tex., Jan. 3.—Whatever advantage there was at the end of the second day's battle in the siege of Nuevo Laredo, Mex., seems with the federal defenders. In the most important engagement a constitutionalist machine gun detachment of 100 men was dislodged from its position, 1,000 yards from the federal lines. The number of federals killed was placed at five.

The main line of the besiegers is unbroken and the government troops held their positions.

Seven constitutionalists were summarily hanged by federals "as a warning." It also was reported that the federals had put to death wounded constitutionalists left lying on the field.

One account of barbarism was witnessed from the American side of the river. A captured constitutionalist was trussed up with a rope to the tail of a wild horse, which then was sent plunging across the plain, dragging the body behind. The prisoner had been shot, but it was not known whether he was dead.

## Rebels Fall Back.

Presidio, Tex., Jan. 3.—After driving a terrific cannon fire into the federal army at Ojinaga, Mex., for four days, General Ortega's rebel army fell back to await the arrival of more ammunition, now on the way from Chihuahua.

The federal forces, entrenched on the heights of the village, from which they command a sweeping range on the advancing rebels, enabled them to hold out against superior numbers. So far the losses have been heaviest on the rebel side, due to the federals' superior range. Federal deserters reported that they had fewer than 100 killed, with an unknown number wounded, while the rebel losses would exceed that number.

## Missionaries Need Broadest Culture.

Kansas City, Jan. 3.—Ignorance on the part of a missionary will not long hold the intellectual respect of the Oriental student, declared Professor Charles R. Henderson of the University of Chicago, in urging better training of missionaries in social study and actual social service before the student volunteer convention for foreign missions, here. The object of the movement is to induce college men and women to volunteer for service in foreign fields.

Professor Henderson declared missionaries today are called on to do much more than preach.

Macon, Mo., Jan. 3.—John W. Nisbeth of Bevier, Mo., was found not guilty of causing the death of Merle Drinkard, a stenographer formerly in his employ, by a jury. It was alleged by the state that Miss Drinkard, who died last June, came to her death from a drug that had been given to her.

## DUN'S REVIEW OF TRADE

Last Year Successful Period From  
Agricultural Standpoint.

New York, Jan. 3.—Dun's Review of Trade says:

At the opening of the new year it is gratifying to note that 1913 was the most successful period from an agricultural standpoint that this country has ever experienced. Notwithstanding adverse climatic conditions, the total yield of winter wheat surpassed all former records, and while the corn crop fell considerably below the bumper production of the preceding year, higher prices more than compensated for any loss in output. Consequently the value of the nation's farm products reached unparalleled totals, while the export trade of the United States in those staples touched figures never before attained.

The foreign commerce statistics are particularly significant in connection with the monetary situation, the large balance of trade in favor of this country indicating that gold imports may be inaugurated early in the year 1914.

## Marines to Play War Game.

This will be the first marine brigade to engage in advance base operations on a large scale.

## HIGH HAIR AND SPIT CURLS.

Radical Changes in Fashions for Women—  
High Hats and High Heels.

"High hair! High hats! High collars! High hips! High heels!"

Such are the newest fashion mandates from Paris, says the New York Dry Goods Economist, the 68-year-old authority on what women wear, and are going to wear, the materials, colors, and so on out of which they are or shall be made.

The Economist says everything is to be changed. Soft, low and "flattering" hair dressings are to be succeeded by mercilessly revealing coiffures. The neck is to be placed in a stock instead of low neck dressings.

The waist line will be large and loose, the shoulders must droop and there will be many drapings over the hips. The heelless sandal will be discarded for the arched instep and exaggerated heel of the Spanish shoe.

In fact, the fashionable woman's toilette of 1914 will be a union of many ideas, an inspiration from many sources, combined with original modern thought; interpretations by artist and artisan of dominating influences of today. The dressmaker and the milliner are the artists responsible for the new modes, and the new ideas expressed are modified by the touch of independent thought and action so characteristic of the present day.

And now, just as lovely woman has succeeded in reducing her figure to a perfectly straight line, the new decree comes—and, of course, she will obey—that completely changes the silhouette, the hips being enlarged by means of draperies, ruffles and fandangles, short, full tunics and big bows and sashes at your back.

On top of all this, you must wear spit curls on your cheeks!

Yes, you must do it!

The present becoming arrangement, a low, waved outline about the temples which conceals the ears, must all disappear. The hair must be so arranged to distinctly show the shape of the head, even to the manner in which the hair grows about the forehead and temples. Pretty ears shall no longer be covered.

Everything is changed, says the Economist. Verily, verily it is!

And again. You know how hard it has been to remember to keep up that dear little mincing gait with those narrow skirts? In addition to all that you must learn to undulate, rhythmic, shifting the weight from one foot to the other—just let loose and sort of slump along.

My! but some women will be lovely to behold in the new styles!

But if you will be careful, you will be just as pretty as anyone else, for the colors and fabrics are to be beautiful.

Crepes and soft velvety materials prevail, while the present use of strong tones of Oriental character has lessened to clear, fresh tones of flower-like quality, and are known as sweet-pear shades. The range is from the deepest pinks to pale flesh tones, these are much favored, also yellows and blues. In neutral shades,

tans, from the lightest champagne to deep khaki, will prevail. The great outing color of the season will be yellow, in its various shades. There is also indication of terra cotta, particularly in materials for wraps.

Both long and short sleeves will be worn. Long sleeves for day and street wear. Evening gowns will be entirely sleeveless, especially those of classic inspiration. Many new long sleeves are of fancy design.

The craze for dancing is creating a fashion for dresses without trains. Skirts clear the floor by several inches, and are simple and youthful in style. This will make a demand for new and natty footwear.

The fact of the business is that there is to be such a big revolution in the style of women's dress the coming spring and summer that our streets will, say by Easter Sunday, have the appearance of having become suddenly populated by women from Paris and the Orient; because, one thing, the styles in trimming and the wearing of ornaments is so wide in latitude that anything sufficiently novel will be permissible, and beads, especially in amber, will be strung all over every part of the dress the wearer may desire.

The new fashions in dress will permit of many desertations along varied lines. But, nuff sed this time.

One thing is certain: You can't make over your last summer's gown! And you will not want to when you see the beautiful, soft new fabrics, in the exquisite colorings and shades that will be shown.

## LET A BOY PICK HIS OWN DIET.

Everything He Can Eat While Grow-  
ing Will Be a Help to Him.

The appetite of a growing boy is a constant source of astonishment to his mother, and the ease with which he consumes more food than the adult members of the family convinces her that his tastes are abnormal. She forgets that in the second period of rapid growth that comes early in the "teens" Nature is making every effort to build a perfect individual and needs all the help she can get. She cannot build without a wealth of material, and so every boy who is physically more active than his father and mother, who is using his brain for study and growing rapidly besides, needs an abundant supply of food. What should this food be? Should his diet be limited or his taste questioned? Generally speaking, no. He needs all kinds of food,

and he generally craves what he needs. He needs protein to build a man's frame and he needs a larger proportion of it than the average adult requires. He also needs fat and starches to furnish the heat and energy burned out in his ever active body and to keep his tissues plump and rounded. While he needs much protein, do not expect him to get it all from meat. Indeed, it is better that no small part of this nitrogenous food comes from milk and eggs, cheese, beans and peas. If he has plenty of these rich and relatively cheap foods he will not crave meat so inordinately as some growing boys do. The boy needs a large quantity of carbohydrates. That is why his demand for bread and butter is limited only by the supply at hand, and why he uses almost as much butter as bread. Let him have all he wants. By the pound butter is expensive, but it is pure, wholesome food, and he can use it readily. It will not make him ill; quite the contrary. And do not be afraid of sugar and sweet foods. Sugar is a true, concentrated food. Give him candy for dessert. He craves it and his craving is natural, not abnormal. The boy's instincts will lead him to choose the all around diet he needs. To limit his choice to a few articles compels him unconsciously to overuse the one he likes the best. To regulate his diet to the tastes or foods of his father or mother is cruelty and will probably result in an undernourished child. If grown people wish to experiment on new foods they have the right to do so, but they do not have the right to inflict their ideas of what is good for them on their growing children. Good food in variety and plenty of it is what the child needs, and if it is provided his taste will not be abnormal nor will his astonishing appetite result in more than healthy rapid growth.—From the Journal of the American Medical Association.

## RESUME SEARCH FOR RALPH LOPEZ

Find Baskets of Poisoned Food Left for Him Untouched.

### FOILS POSSEMEN LIKE LOPEZ.

Armenian Miner Takes Refuge in Upper Bingham Mine After Shooting Fellow Workman and Later Escapes From Lower Level.

Bingham, Utah, Jan. 3.—Still unanswered is the question as to the fate of Ralph Lopez, for whom search was resumed in the Utah-Apex mine. Before the portals were sealed, Dec. 14, miners' lunch buckets filled with poisoned food were left where the desperado might find them. They were recovered untouched.

Sheriff Smith will keep up the search until every foot has been gone over unless the slayer of six men is discovered dead or alive before then.

In the Andy incline, where Lopez killed two deputy sheriffs Nov. 29, two days after he took refuge in the mine, the posse found a sort of breastworks built of stone and earth.

Sticking into the bulkhead of the Minnie tunnel was found a stake which looked as if it might have been used by Lopez in an attempt to pry open the barrier. Other than this there was nothing to encourage the searchers.

Although armed and ready for a second underground battle, the officers felt confident the gunman would be found dead unless he had escaped some weeks ago from the mine. That he did escape is the belief of many.

#### Foils Possemen Like Lopez.

After shooting and seriously injuring a miner named Peter Mike, in the open workings of the Utah Copper company at Upper Bingham, Yousouf Bessir, an Armenian miner, escaped a posse by entering an underground mine and coming out at a lower level before all the portals could be guarded. After leaving the mine, he went to his home, supplied himself with ammunition and disappeared. At first it was thought that the fugitive intended to imitate Ralph Lopez and make the mine his stronghold.

### PIRATE BROUGHT TO FRISCO

Andrew B. Nelson, Sea Rover, Makes Attack on Captain of Schooner.

San Francisco, Jan. 3.—Captain Andrew B. Nelson, a sea rover and Arctic trader who turned "pirate," was brought to port in Irons, locked in the brig of the schooner Willamette, and turned over to the federal authorities, who held him in \$10,000 bail on a charge of assaulting Captain Reiner on the high seas with intent to commit murder.

With him was brought Joseph Laramie, a bricklayer, who says he is from Shelby, Ind., charged with being an accomplice in the crime.

Nelson was arrested after a hand-to-hand battle in the captain's cabin, which he had entered muffled in a towel, wearing a brown wig as thick as a thatch and as palpably false, a false mustache and carrying an automatic pistol in his outstretched hand. Captain Reiner fought the pistol away from the grotesque pirate, who immediately drew a double-action revolver. He was getting the better of the captain when two sailors and a waiter rushed into the room, overpowered Nelson and ironed him. Laramie was standing outside the door while the fight was in progress.

The Willamette carried \$1,500 in cash to pay its crew of twenty-five and there were twenty-five passengers quartered aft. A launch followed the vessel, keeping distant about half a mile, and Captain Reiner believes the pirate intended to rob the safe and hold up the passengers for their cash and valuables and make his escape to shore in the launch.

### WOMAN PUTS LID ON TOWN

Oregon Head's Secretary Orders It Under Martial Law.

Copperfield, Ore., Jan. 3.—Martial law was declared here by Colonel B. K. Lawton, superintendent of the state penitentiary. Five members of the coast artillery backed up the proclamation. This action followed a demand made by Miss Fern Hobbs, private secretary to Governor West, for the resignations of members of the city council and other city officials who are accused of violating an ordinance regulating county anti-saloon laws. When her demand was refused the governor's representative ordered Colonel Lawton to place the town under martial law. Then she boarded a train to return to the state capital.

Colonel Lawton's small force began operations by closing the saloons, of which they took charge. All of the city officials were placed under arrest and were held incommunicado, not being permitted to communicate with attorneys.

Maryland Suff's Get Marching Fever. Washington, Jan. 3.—Inspired by the "hike" of their New York colleagues, who, headed by "General" Rosalie Jones, are advancing on Albany to impress upon the legislators the necessity of a suffrage amendment, members of the congressional union here began plans for a similar move upon Annapolis, the Maryland capital.
